no charge to the Town for hired equipment while it is being transported on a float to or from job sites. There will be no charge to the Town for a float to move hired equipment out of a job site once the work is completed.

- k) The Town will not pay for an extra float move if the Contractor wishes to leave the job site at the end of a workday when the Contractor is scheduled to work for the Town on the following day on the same job site.
- l) Whenever a float is required to transport Town equipment, a minimum of two hours will be allowed.
- m) The Town is at liberty to rent all or any portion of the equipment offered for rental.
- n) The Town will accept one hourly rate only, covering both regular and overtime hours.
- o) In the case that the contractor cannot commit or guarantee that he will be available for a job when called to work for the Town, the Town reserves the right to rent from other contractors for all or any type of equipment identified in this quotation.
- p) **All vehicles and other equipment must maintain all Provincial regulations and are subject to applicable by-laws of the Corporation of the Town of Hawkesbury. Please note that contractors not in regulation with the Town's by-laws will not be selected to work for the Town. Consequently, proper wide loads, reduced loads or annual permits must be obtained from the Town. This will be strictly enforced.**

3.2 EMERGENCY

An emergency is a situation that poses an immediate risk to health, life, property, or environment. Most emergencies require urgent interventions to prevent a worsening of the situation.

3.3 EMERGENCY WORK

Emergency Work means works, the execution of which, at the time it is proposed to execute them, is required to put an end to, or prevent, the arising of circumstances then existing or imminent that are likely to cause: (a) danger to persons or property; (b) the interruption of any Essential Services provided ; (c) substantial loss to The Town or any third party; and/or (d) such other works as in all the circumstances it is reasonable to execute with those works.

Therefore, we expect that any contractor that submits a price for APPENDIX B – SCHEDULE OF PRICE EMERGENCY WORK, acknowledge the principle of emergency work. Work can occur at any time of the day or night and 365 days a year. It can be on a statutory holiday or a normal weekday. The price for the equipment rental will stay the same.

Furthermore, it is understood that this schedule of prices is only applicable for under emergency circumstances. It is therefore required by the contractor to supply and deliver the equipment with a qualified operator within two and a half hours (2:30) after the call is made from the Town representant.

The contractor shall only bid on items that can be supplied. Equipments are to be quoted at an hourly rate for the unit complete with operator, fuel and maintenance. If contractor has different size or type of equipment, he can specify different hourly rates in the tables below.
